

Global 6000

BOMBARDIER

We've spent over 50 years re-imagining private flight

A History
of Ingenuity.

Forever
Visionary.

Our 50 years of innovation have led us to see opportunities where others see limits. A rich history of ingenuity inspires us to relentlessly reinvent and refine every detail of our private aircraft. It's just who we are.

Meticulous is putting it lightly; we're big on the little things

Every detail of a Bombardier business aircraft is meticulously selected. Our expert engineering and superior craftsmanship allow you to experience productivity when you need it and comfort where you expect it. Nothing more and nothing less than what an exceptional private jet should be.

Expect exceptional from start to finish

When it's this well thought-out, you don't give it a second thought. Every element of your journey with us has been designed to flow seamlessly every step of the way.

Orchestrating every last detail are experts that translate your vision into business jets crafted uniquely to your specifications.

BOMBARDIER

Exceptional by design
BOMBARDIER

The world is at your service

We work around the clock to keep you flying. Behind the scenes, a worldwide network of technicians and customer services representatives anticipate your every need – wherever, whenever.

24 / 7 Service • Ground, air, mobile response services through our Customer Response Team • 14 Regional Support Offices worldwide • High parts availability through 13 parts facilities around the world • Bombardier-owned flight and technical training • Over 60 service & maintenance facilities around the world • Industry-leading cost protection with Smart Services • 17 Customer Response Trucks deployed

Exceptional by design

Bombardier designs world-class aircraft and signature moments. Through our visionary heritage, crafted excellence and orchestrated experiences, we create something greater than the sum of its parts – something Exceptional by design.

Global 6000

The smoothest part of your day

The Global 6000 aircraft was designed to help you get things done - from conducting a business meeting to getting a good night's sleep. Work, rest or play - it's easy with a Global 6000 business jet.

Smooth ride The advanced wing design provides you with a restful flight and a smooth ride.

Exceptional cabin experience With a re-imagined interior design and more room than its nearest competitor, this aircraft delivers maximum comfort.

The fastest in-flight internet connectivity worldwide Available Ka-band technology will keep you connected at all times.

Record-setting versatility Do more with the aircraft offering the best combination of speed, range, field performance and ride quality. The Global 6000 aircraft holds speed records from Aspen to London City Airport and from London City Airport to New York.

Safe access to baggage What you need, when you need it: safely retrieve your personal items from the luggage compartment throughout the flight.

This is how exceptional feels

Every detail in the Global 6000 aircraft cabin has been carefully designed to bring you the smoothest, most refreshing, and productive experience you can expect from a business jet.

Expand your personal space

Offering more room than its nearest competitor, this aircraft delivers maximum comfort.

An exceptional cabin experience

Upon entering the large, re-imagined cabin, discover available hardwood flooring in the galley, seats sculpted to welcome the human body and elegantly redefined lines which all come together to create an aesthetic masterpiece.

With outstanding width, higher armrests and an impeccably shaped backrest, the new seats allow passengers to enjoy a delightful and inviting experience, ideally suited to long distance travel. Whether you wish to work, rest or play, time will simply fly by as you sit back in this exceptional interior which mirrors the Global aircraft's exceptionally smooth ride.

Forget you're flying

The advanced wing technology is the key to enjoying a smooth ride, and possibly the best night's sleep you will ever have on a business aircraft.

Always connected

With the fastest available in-flight internet connectivity worldwide based on Ka-band technology, travelling will never again stop you from video conferencing, live streaming or even online gaming. For work or play - you're always connected.

Your media centre in the sky

Anything is possible with the most comprehensive cabin management system. Ultra-fast, reliable, intuitive and featuring a large media bay, it offers you the possibility to wirelessly watch movies, mirror live streaming or display documents onto the largest high definition TV monitors in the aircraft's class.

What you need, when you need it

Access what you require, as required. With the high-capacity luggage compartment safely accessible throughout the flight, your personal items are always within reach.

Your time is precious

The Global 6000 aircraft perfectly blends all aspects of performance. With a class leading combination of range, speed, field performance and ride quality, you will arrive at your destination with time to spare.

Aspen to London City Airport

The Global 6000 aircraft is the largest business jet that can fly from Aspen to London City Airport non-stop thanks to its steep approach certification and formidable performance.

Performance creates possibilities

Challenging airfields don't pose a problem. With its advanced wing design, the Global 6000 aircraft is capable of flying fast, but also offers the range of approach speeds necessary to access short airfields.

Planned perfection

The latest in technology and design are seamlessly integrated to bring you the most advanced and reliable flying experience.

Fly effortlessly

The revolutionary Bombardier Vision flight deck makes flying the Global 6000 aircraft an exceptional experience. It has business aviation's most advanced avionics suite, with ergonomics and aesthetics that provide pilots with outstanding comfort and control.

The unique combination of features such as the synthetic vision system on the head-up display and the MultiScan weather radar contribute to enhancing situational awareness at any time and in any weather. The industry leading flight deck reduces pilot workload for a safer, more efficient experience.

On a mission

Governments worldwide depend on the Global 6000 aircraft's innovation, reliability and safety to fly some of their most demanding and critical missions.

Your crew at their best

The crew can take advantage of the dedicated full-size rest area, added to expand the aircraft's operational reach and ensure everyone can work at their best.

Global 6000

Smooth ride

The advanced wing design provides you with a restful flight and a smooth ride.

The fastest in-flight internet connectivity worldwide*

Available Ka-band technology will keep you connected at all times.

Safe access to baggage

What you need, when you need it: safely retrieve your personal items from the luggage compartment throughout the flight.

Exceptional cabin experience

With a re-imagined interior design and more room than its nearest competitor, this aircraft delivers maximum comfort.

Record-setting versatility

Do more with the aircraft offering the best combination of speed, range, field performance and ride quality. The Global 6000 holds speed records from Aspen to London City Airport and from London City Airport to New York.
