

JSSI Advisory Services offers a range of consulting services, provided by industry experts, for businesses and individuals who require specialized advice on all aviation matters. As an independent provider, we are uniquely positioned to provide our clients with expert and unbiased advice on the real costs associated with owning and maintaining an aircraft.

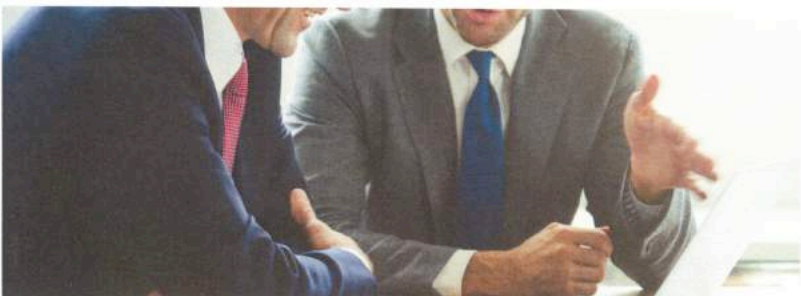

We understand the true costs of aircraft ownership because we pay the invoices for over 2,000 aircraft under contract on JSSI programs. Moreover, our technical advisors and product line specialists manage over 8,000 engine and airframe events each year. This experience is unparalleled in the industry and can lead to significant time and cost savings.

ASSET INSPECTION SERVICE

In an ongoing effort to provide further value to our clients and their customers, we are pleased to offer a new option that combines an asset inspection with complimentary enrollment into AMP. With over 70 technical advisors located worldwide, JSSI delivers both convenience and expertise when it comes to inspecting your assets.

THE INSPECTION REPORT INCLUDES:

-  Complete copies of the engine and airframe logbooks
-  Images of the aircraft and data plates
-  Current maintenance status reports
-  Images or documentation of any "red-flag" items
-  Any other "must-have" items per your request

MAINTENANCE COST PLANNING

With 27 years of actual maintenance cost data, JSSI can help plan and budget for any operation.

MAINTENANCE EVENT MANAGEMENT

Our experienced and knowledgeable team can provide expert advice on the best maintenance facility for a particular inspection and manage the entire event.

COMPARATIVE AIRCRAFT ANALYSIS

JSSI can assist with cost vs. value analysis and provide unbiased advice on the true long-term costs when purchasing a new aircraft.
